*Momotaro tomato*

*Intense pink colour*

*Strong vine*

Our pink tomatoes really live up to their type 'speciality'. They stand out because of the two extremes of flavour you'll find. Umami taste; they are sweet and tangy at the same time! And are filled with a rich aroma!

Or what to think of the rich shades of pink on the exterior and the vibrant coloured interior. Not to mention the vigorous plant traits. The fruits, the taste and the plants provide a special mix of characteristics, that make our pink tomatoes one of a kind.

*Pink Treat F1*  
*Speciality*

Pink Treat is a Momotaro tomato variety with slightly ribbed shoulders and a multi locular structure. It produces clusters with 4-5 fruits, suitable for loose harvest only. Suitable for transportation.

Tasty variety

---

*Plum medium*

*Long shelf life*

*Fresh*

This variety has many strong characteristics like stability, good fruit setting, high yield and the fruit uniformity of the tomatoes. All this makes Zenete an attractive variety for growers. The crispy skin, the firm flesh and the long shelf life makes it suitable for export. But at the end of the chain it's the consumer who appreciates this variety, because of its very good taste!
